

Make Your Move

Moving is never easy. Whether this is your first move or your 20th, there is always something that seems to happen for which you are unprepared.

That's where we come in—AmeriForce Publishing wants to help smooth your military transitions, starting with our revamped relocation guides.

The *2008 Europe Guide* features new sections to help you find the topics that most interest you and your family—from tips on traveling with pets to those designed to help prepare your children for the move, we tried to touch on all aspects of your move.

We have also redesigned our directory, making it more compact and easier for you to find the basic numbers you may need for your new installation.

Another feature we've added in this guide, which we plan to continue in all our relocation guides, is PCS Stories. If you are in the military (and I assume you are), chances are you've made a move or two. And with each move comes new experiences and lessons learned. We started PCS Stories to share some of those lessons. And you can share your own experiences for the chance to receive \$50. See below for details.

Warm Regards,

Jennifer G. Williams, Editor

We need your stories!

Do you have an interesting, funny or frustrating PCS Story (and who doesn't?) If so, email your story (between 650 and 750 words, please) to jenniferw@ameriforce.net. If we publish it, you'll receive \$50.

Please include your name, address and telephone number with your submission, along with a brief explanation of why you think your story would be helpful to others.

We reserve the right to edit all submissions. All submissions become property of AmeriForce Publishing and may be republished and used for any purpose
