Garmin Astro DC30

- Bright color-screen handheld GPS device and rugged, orange polyurethane DC 40 collar
- Collar Lock creates a four-digit PIN number that helps prevent others from seeing your dog's whereabouts
- As often as every five seconds, your dog's DC 40 transmits his position to your handheld, and a trail of where he's been on the map page of your handheld
- An alarm to let you know instantly when your dog goes on point
- All the features of Garmin's top-line handheld outdoor devices, including a barometric altimeter, electronic compass, microSD™ card slot, celestial information, area calculator and rugged, IPX7 waterproof exterior

MSRP: \$649.99
Details: www.garmin.com

Magellan Triton 1500-North America

- 2.7" color touch screen control - simple menus, instant access buttons, intuitive keypad and crystal clear graphics let you navigate functions easily
- Microphone and speaker enable you to record audio notes for waypoints to share with friends and family or easily find your way back next time
- Light your way with a powerful LED flashlight. Low power consumption helps maximize battery life
- Use your own SD memory cards to upload unlimited detailed maps
- Basemap of the 48 contiguous United States, Alaska, and Canada (major highways, city centers, bodies of water and more) plus worldwide geographic boundaries

List price: \$299.99
Details: www.magellangps.com

Garmin Rino 520HCx

- Waterproof FRS/GMRS radio plus GPS navigator sports 5 watts of transmit power, a microSD card slot and brilliant color display along with a high-sensitivity GPS receiver
- Unique position reporting lets you send your exact location to other Rino users in your group so that everyone can see your position on the map page. And, because Rino is a standard FRS/GMRS radio, you can use it to communicate with any other conventional FRS/GMRS radio around
- 5 watts of transmit power (GMRS), which lets you contact others from up to 14 mi away (line of sight)

MSRP: \$449.99

Details: www.garmin.com

Magellan Triton 500

- Simple menus, instant access buttons, intuitive keypad and crystal clear graphics let you navigate functions easily
- 3-axis electronic compass - Clearly see your direction no matter how you hold your GPS, even when standing still
- Barometer - Sensitive barometric pressure readings offer advance notice of changing weather and assists in providing accurate elevation
- Full-color 2.2" display - The large display shows maps, simple menus, navigation screens and other data in brilliant color

MSRP: \$199.99

Details: www.magellangps.com

DeLorme Earthmate GPS PN-60w with SPOT

- Type and send one-way text messages via the SPOT satellite system. Use the GPS to see where you are and also to type and send check-in messages beyond cellular coverage, as well as send for help if ever needed
- Allow others to track your progress on social network sites like Twitter, Facebook, and SPOTadventures.com
- Military standard 810F for vibration and shock – also tested to function in high-vibration conditions such as the Bonneville Salt Flats
- No need to actively send a message; tracking is automatic as long as the SPOT Satellite Communicator is turned on

MSRP: \$699.95

Details: www.delorme.com
